BLUETOOTH CONNECTION INSTRUCTIONS

1. Turn On the Device

Turn on your device and make sure it has sufficient power. If your device has a pairing button, press and hold it until the indicator light flashes or you hear a pairing prompt.

2. Enable Bluetooth on Your Phone

Open Settings on your smartphone and turn on Bluetooth. Keep your phone and device close to each other during the pairing process.
3. Search for Available Devices
Wait for your device name to appear in the list of available Bluetooth devices.

4. Connect to Your Device

Tap the device name to connect. Once paired successfully, the device should appear as Connected in your phone's Bluetooth settings.

5. Enjoy Your Device

Your device is now ready to use. You can enjoy supported Bluetooth features such as music playback and hands-free calling.TROUBLESHOOTING

Device Not Found?

Make sure your device is turned on and in pairing mode.
Keep your phone and device close to each other.
Turn Bluetooth off and back on, then search again.

Unable to Connect?

Make sure your device is not already connected to another phone.
Remove or forget the device from your phone's Bluetooth list.
Restart your device and try pairing again.

Connection Drops Frequently?

Keep your phone and device within the recommended Bluetooth range.
Reduce interference from other wireless devices.
Make sure your device has sufficient power.
Note: Bluetooth device names and pairing procedures may vary by model. Please refer to your product's specific operating instructions when necessary.
